

Beskrajni samoljepljivi kalendar | Everlasting Adhesive Calendar — 2004. — opis projekta *project description* --- Everlasting Calendar multifunkcionalni je objekt koji istodobno funkcionira kao planer/post-it/samoljepiva traka/naljepnica... i, naravno, kalendar. Jedino ograničenje koje ima njegova je vlastita dužina. Možete osobno kreirati gotovo svaki mjesec bilo koje godine kombinirajući dane i datume oblikovane na kolutima različitih debljina, paralelno ih lijepiti na bilo koju podlogu i mjesto koje zaželite (stol, zid, sobna vrata, vrata ormara, WC...). Kalendar je oblikovan kao blagdanski dar/čestitka za klijente i prijatelje studija Laboratorium. — *Everlasting Calendar is a multifunctional object that also functions as a planner / post-it / sticky tape / label and of course a calendar. The only restriction that it has resides in its own length. You can personally create almost every month of any year at all, combining dates and days formed on reels of various different thicknesses, stick them in parallel on any surface and place you want (table, wall, interior door, wardrobe door, loo). The calendar is designed as a seasonal gift / greetings card for the clients and friends of the Laboratorium Studio.*
